Lester B. Pearson High School

At Lester B. Pearson (LBP) High School, our students are our greatest strength. We value the unique talents, backgrounds and experiences of our student as we strive to provide courses to meet their needs: from International Baccalaureate (IB), to English Language Learning (ELL) and to Knowledge and Employability (K & E). We offer meaningful ways for students to contribute and participate not only in their academic courses, but also through fine and performing arts, athletics, clubs, travel, leadership, social and cultural events.

Pearson Patriots are involved and meet their personal best during their high school years and are prepared for the transition after graduation. Lester B. Pearson fosters a legacy of achievement, belonging and celebration, which is accomplished through our values of respect, accountability, integrity, attendance and empathy.

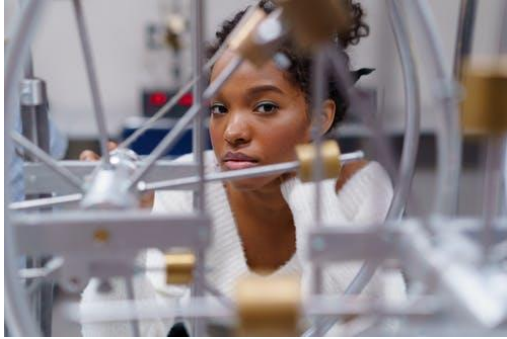

Our facility includes two gymnasiums, a theater, a dance studio, two art studios, a graphic design computer lab, a fitness centre, well-equipped science labs, a professional kitchen, a food studies lab, a fashion studio, a wood-working shop, a media centre and several fixed and portable computer labs. We are adjacent to the community recreation centre with access to swimming facilities, alternate gymnasiums and a public library.

Programs offered at LBP to personalize learning for our students include:

- ACCESS (Attitude, Community, Competence, Elements of Academic Curriculum, Social Skills, CBE Specialized Setting)
- ALP (Adapted Learning Program, CBE Specialized Setting)
- Career and Technology Studies
- Dual Credit
- English Language Learning
- Fine and Performing Arts
- International Baccalaureate (IB) Programme
- Knowledge and Employability (K&E)
- Work Experience and Registered Apprenticeship Program (RAP)

Learning at Lester B. Pearson High School

Grade 10: Grade 10 students are well-supported in their transition to high school through work with their classroom and Connect (Homeroom) teachers. Grade 10 teachers work closely with students to ensure that students have access to supports needed throughout the school year to maximize their abilities and talents. Through the de-tracking of English Language Arts 10 and Social Studies 10, students are given the opportunity to achieve at the highest level according to their abilities. Grade 10 students will have a

full schedule (8 courses) and be able to earn 40 credits.

Grade 11: Grade 11 students register in mostly semestered courses and are expected to earn at least 38 credits during the academic year. Grade 11 students may be eligible for one spare during academic year provided they are on track to earn sufficient credits for high school diploma requirements. Grade 11 students and parents are encouraged to review admission requirements for post-secondary institutions and choose courses that meet specific admission requirements.

Grade 12: Grade 12 students register in mostly semestered courses and are expected to earn at least 30 credits. Grade 12 students must make appropriate course selections to meet high school diploma requirements. Students must also ensure they are meeting entrance requirements for the post-secondary institution and program of choice.

Returning Grade 12: A limited number of students may be approved by administration to return for a four year of studies to meet high school diploma requirements. Returning Grade 12 students must have full schedules (3 courses per semester) and remain in good standing while at LBP.

Specialized Programs at LBP

English as an Additional Language (EAL)

The English as an Additional Language (EAL) program provides focused instructional support for students whose first language is not English and are continuing to develop academic language skills in English to be successful in all of their courses. Students' English language skills are assessed prior to placement in introductory (levels 1 and 2) and intermediate (level 3 and 4) EAL courses. EAL support is offered to students through courses in English, Canadian (Social) Studies, Science and Math. The Alberta Education ESL Proficiency Benchmarks are used to assess students' language proficiency levels.

International Baccalaureate (IB) Diploma / Certificates

The IB program at LBP seeks to develop “internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world” (IB Mission Statement). The program encourages participation in creative and service-oriented actions, as well as personal and academic reflection while addressing intellectual, social, emotional and physical well-being. Students will cover the curriculum required by Alberta Education and the IB Programme.

Students who take IB courses prepare for success at university and life by developing intellectual, social, emotional and physical well-being. IB learners also desire a demanding curriculum, like the Diploma Programme, which leads to final IB examinations and a qualification that is welcomed by leading universities around the world. Students can also receive recognition through scholarships from institutions of higher education.

International Baccalaureate (IB) Career-Related Program

IB CP students carry a 3-part framework. They complete a minimum of two IB Diploma Courses, CP Core and career-related courses with the regular Alberta Education program. On completion, students will receive an Alberta High School Diploma and an IB-CP Certificate in their career field of choice. IB CP students choose:

- Minimum of two IB Diploma Courses from groups 1 – 6
- Personal and Professional Skills Course
- Complementary Course Approved by IB. Selection includes: Animation, Architecture, Culinary, Financial Management, Graphics, Pre-Engineering or Sports Medicine,
 - **Note** | Lester B. Pearson is the only High School in Calgary that offers the IB Career-Related Program

Grade 10 International Baccalaureate Preparation Program

The Grade 10 IB preparation program prepares students for entry into the two-year Full IB diploma, two year partial (IB course certificates) or the two year Career Related programs. Grade 9 students interested in this preparatory program must submit an “Expression of Interest” form (available on the school and CBE websites) to be considered for this program.

Knowledge and Employability (K & E)

K & E is intended for students who are seeking an immediate entry into the workforce after earning their Certificate of High School Achievement (80 credits). Parent authorization is required for participation in this program. Students choosing senior high Knowledge and Employability (K&E) courses typically wish to enhance their academic and occupational competencies and transition into employment and/or continuing education and training opportunities. Students taking K&E courses may qualify for a Certificate of High School Achievement or they may continue their studies to qualify for an Alberta High School Diploma (100 credits).

Certificates

LBP students are eligible to earn highly regarded certificates while completing their high school studies. Please speak to your Guidance Counselor to apply.

- **CBE Fine and Performing Arts Certificate**

Multiple Paths to Student Success

The staff at LBP has created a variety of ways for students to be successful.

- All families are encouraged to sign up for parent portal of “PowerSchool”. This is an online tool for CBE parents to monitor their child’s attendance, academic standing, and demographic information. Students automatically have a “PowerSchool” account. The school requires an e-mail address from a parent/guardian to open an account. Full details on how to sign up are on the school website. If parents need assistance, please call the school at 403-280-6565.
- All LBP students are supported by a “Connect Teacher”. This significant adult will follow a student for their three years at LBP. They will support and mentor students. Connect teachers will help students understand academic expectations, develop personalized learning strategies and empower learners to meet life goals.
- An active Student Services and Administrative team offer additional support, as required.

If a student does not earn the 50% minimum grade requirement to advance in the course sequence, they may be able to:

- Repeat the course with the goal of successfully earning a passing grade. This may require students to enroll in a course in the summer or online.
- Teachers may provide credit recovery opportunities, allowing students to complete the section(s) of the course in which they were unsuccessful instead of having to repeat the whole course. For example, if in Science 10 you were successful in the biology, chemistry and climate units but failed the physics unit, the credit recovery option provides you with the opportunity to complete the physics unit with

the goal of obtaining a passing grade. This option requires your teacher's recommendation and is not available to a student who has failed multiple units in the course. Students must complete the credit recovery within a specified period of time that is negotiated with the teacher. Generally, students complete the credit recovery program by the end of the semester, utilizing the time available during final exam breaks in January or June.

School Clubs

Participation in extra-curricular clubs is a great way to enhance a student's high school experience, through bringing together with students and teachers who have similar interests. LBP has a wide range of school clubs available to students during lunch or after school.

Animation
Athletics
Chess
Creative Writing
Culinary Team
Debate / Speech
Drama
Dungeons and Dragons
Finance
Gay Straight Alliance (GSA)
Graduation Committee

Indigenous Meetings
Junior Achievement
Model UN
Multicultural Girls
Muslim Youth
Nerd (Dance)
Robotics
School Store
Social Justice
Student Council
Yearbook

Youth Volunteer Corps

Athletics
